Professional Summary

Software Engineer with a Bachelor's degree in Computer Science, several professional certificates and over 10 years of experience across multiple technologies. I am deeply involved with **Rust**, **AI (meta-heuristics)**, **embedded systems** and **high-performance computing**.

Key Achievements

- **Rust Foundation Grantee:** Received a community grant to independently research and enhance the Rust ecosystem.
- **Personal Projects:** Extensive portfolio available on [GitHub](#). Creator and maintainer of [wtx](#).
- **Rust Compiler Contributor:** Implemented [param_attrs](#), [array_from_fn](#), [let_chains](#), [macro_metavar_expr](#), [cfg_select](#) and [macro_metavar_expr_concat](#).

Professional Experience

Independent Open-Source Developer

Jul 2023 - Present

- Dedicated time to architecting and maintaining high-performance personal projects in Rust.
- Continuously learning and researching advanced concepts in cryptography, AI and network protocols.
- Contributing to different Open-Source projects across different fields.

Grant Recipient | Rust Foundation

Jan 2023 - Jun 2023

<https://rustfoundation.org/media/introducing-our-newest-project-grant...>

- Awarded a financial grant to independently research and enhance the Rust language ecosystem.
- Worked on errors involving trait implementations as well as a new Clippy lint.

Blockchain Developer (Remote) | Zeitgeist

Mar 2021 - Oct 2021

<https://github.com/zeitgeistpm/zeitgeist/pulls?q=is%3Apr+author%3Ac4...>

- Developed and optimized Substrate pallets, ensuring high reliability through rigorous unit and integration testing.
- Managed the deployment and configuration of parachain nodes across various relay chains.
- Researched, designed, and implemented automated liquidity provider incentive mechanisms.

Blockchain Developer (Remote) | Valiu

Oct 2020 - Jan 2021

<https://github.com/virto-network/kreivo/pulls?q=is%3Apr+author%3Ac4...>

- Architected Substrate-based blockchain solutions tailored to custom business demands.
- Built highly efficient Rust libraries to facilitate seamless interaction with external nodes.
- Developed fundamental data structures and microservices utilizing idiomatic Rust.

Independent Developer (Remote) | Zondax

Mar 2020 - Jun 2020

<https://github.com/Zondax/filecoin-signing-tools/pulls?q=is%3Apr+auth...>

- Designed and constructed robust FFI (Foreign Function Interface) endpoints to allow cross-language interaction with core services.
- Developed highly constrained embedded systems logic using Rust.
- Maintained and upgraded multiple distributed ledger and blockchain infrastructure projects.

Senior Blockchain Architect (Remote) | LNX Protocol

Sep 2019 - Jan 2020

- Created secure JSON-RPC endpoints and an accompanying JavaScript library for transaction signing.
- Refactored legacy infrastructure into modern, idiomatic Rust, significantly reducing technical debt and resolving critical bugs.
- Produced and upstreamed code improvements directly to Substrate and Polkadot repositories.

Java Developer (Intern) | Neolog Consultoria e Sistemas

Feb 2015 - May 2016

- Maintained and expanded enterprise-grade Supply Chain logistics applications.
- Utilized Java ecosystem tools including Spring Framework, Hibernate, Jackson, Jasper, and Jersey.
- Developed frontend interfaces with Java Swing and AngularJS, managing builds via Ant, Gradle, and Maven.

Education

Bachelor of Computer Science

Jan 2012 - Jun 2018

FEI (Fundação Educacional Inaciana)

Focus: Programming, Algorithms, Meta-heuristics, AI, C/C++, Java, Operational Systems

Bachelor of Technology in Internet Systems

Jan 2008 - Dec 2009

FIAP (Faculdade de Informática e Administração Paulista)

Focus: Core web technologies, Networks, Databases, HTML/CSS/JS, PHP

Certifications

[View 50+ additional courses](#)

Kubernetes and Cloud Native Associate (KCNA)

Linux Foundation

Linux Foundation Certified IT Associate (LFCA)

Linux Foundation

Linux Foundation Certified System Administrator (LFCS)

Linux Foundation

Confluent Certified Developer for Apache Kafka (CCDAK)

Confluent

Google Cloud Certified Associate Cloud Engineer

Google Cloud

Certified Blockchain Solution Architect (CBSA)

Blockchain Training Alliance

Professional Scrum Master I (PSM I)

Scrum.org

Certified Blockchain Developer - Ethereum (CBDE)

Blockchain Training Alliance

Certified Kubernetes Administrator (CKA)

Linux Foundation

Java SE 6 Programmer Certified Professional (1Z0-851)

Oracle
